INSTALLATION GUIDE FOR SOFT GROUND

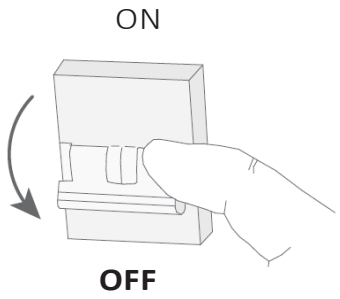

These instruction are made for your safety. Please read them entirely before starting with the installation of the appliance.

This product may only be installed by an authorised electrical installer.

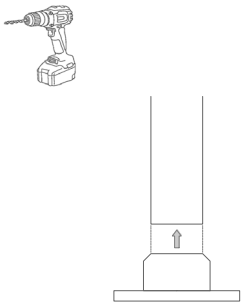

Make sure there are no other cables close by the place of the power cables.

Ensure to switch OFF the fuse before the installation

1

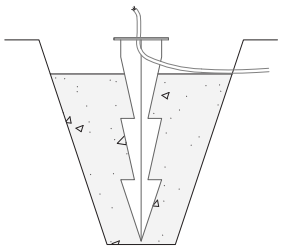

2

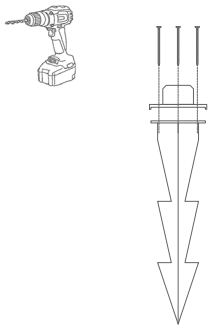

Disconnect the base of the light fixture from the pole.

3

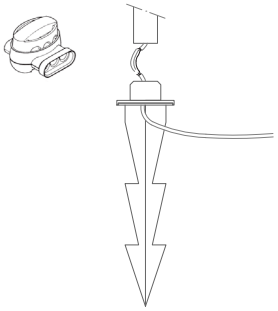

Insert the groundspike into the soft ground.

4

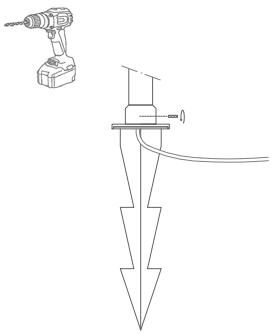

Screw the base of the light fixture onto the groundspike.

5

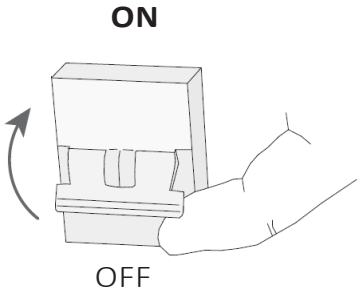

Use a scotchlok to connect the earth conductor and the other cables. (Use the instruction file 3M of the scotchlok 314).

6

Attach the light fixture to the base.

7

Be sure the installation is done right before switching ON the fuse.

The appliance is ready for use, enjoy the light.

OTHER IMPORTANT INFORMATION

The warranty is invalidated when the device is opened. The lamp in the appliance must only be changed by the manufacturer. Children should be discouraged from playing with the lights. Mount the appliance on dry surfaces, otherwise it may cause discolouration of the finish. Metal finishes should only be cleaned with a soft, dry cloth. Do not use polishes or abrasives. Keep this installation sheet for future uses.

INSTALLATION GUIDE FOR HARD GROUND

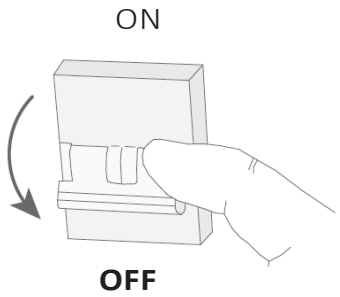

These instruction are made for your safety. Please read them entirely before starting with the installation of the appliance.

This product may only be installed by an authorised electrical installer.

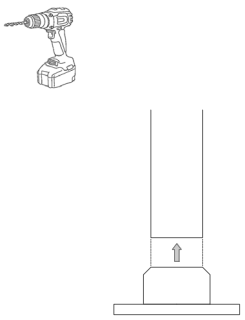

Make sure there are no other cables close by the place of the power cables.

Ensure to switch OFF the fuse before the installation

1

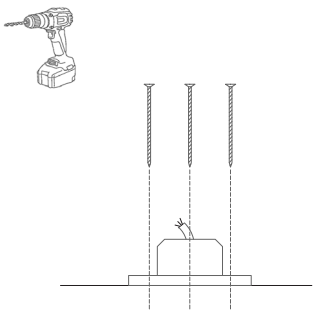

2

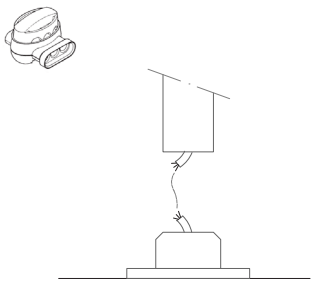

Disconnect the base of the light fixture from the pole.

3

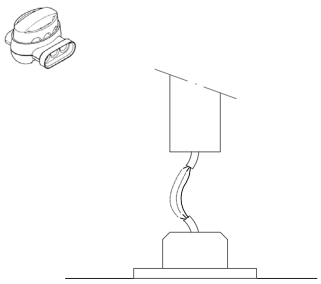

Screw the base of the light fixture into the hard ground.

4

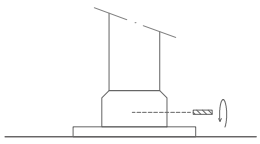

Use a scotchlok to connect the earth conductor. (Use the instruction file 3M of the scotchlok 314).

5

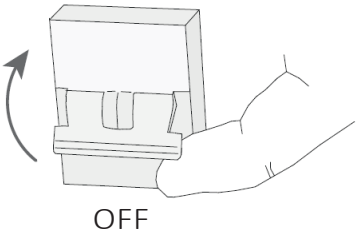

Use a scotchlok to connect the other cables. (Use the instruction file 3M of the scotchlok 314).

6

Attach the light fixture to the base.

7

Be sure the installation is done right before switching ON the fuse.

The appliance is ready for use, enjoy the light.

Scotchlok™ 314

Self-Stripping Moisture Resistant, Electrical Pigtail Connectors

Data Sheet

Application

Use Part No. 314 to electrically connect two or three wire ends, insulate the connection, and provide a moisture resistant seal.

Wire Range

22-14 AWG Solid or stranded, tinned or untinned (0,5-1.5 mm²) copper conductors. For use with common thermoplastic insulated wires: T, TF, TFF, TFN, TFFN, AWM, TEW, SAE-GPT with a maximum insulation diameter of .150 inches (3,8 mm). Maximum recommended current for general purpose applications: 22 AWG - 3 AMPS, 20 AWG - 5 AMPS, 18 AWG - 7 AMPS, 16 AWG - 10 AMPS, 14 AWG - 15 AMPS.

Construction

U-contact - Tin plated brass, .02 in. (0,5 mm) thick

Insulator - Flame retardant nylon,
Color - cap/dk. blue, body/white

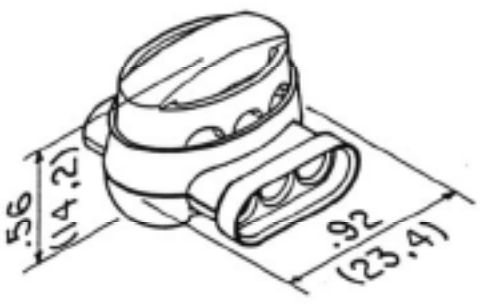

Sealant - Mineral Oil Base EG-3 Grease

Weight

.0077 lb. (3,49 gm)

Recommended Installation Tools

3M™ Crimping Tool No. E-9BM
Mechanics (slip joint) Pliers

Installation Instructions

⚠WARNING

Turn power off before installing or removing terminal. All electrical work should be done according to appropriate electrical codes.

1. Insert 2 or 3 unstripped wires completely into connector and check their position by looking through the translucent connector body.
2. Hold tool perpendicular to the wires and make the connection by driving the cap down flush with the top edge of the connector body.

Regulatory Agencies

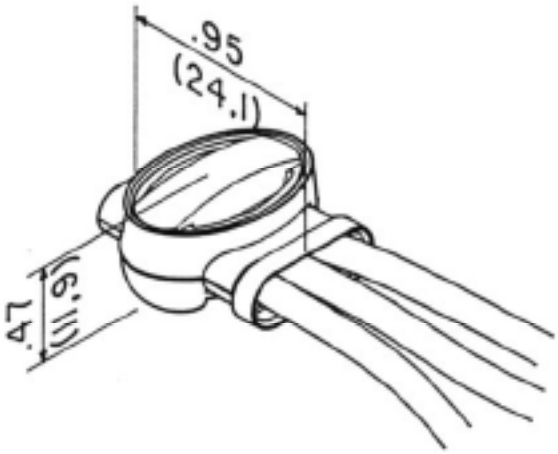

UL Listed - Tested per UL Standard 486C

UL file No. E23438

CSA certified - CSA Std. C22.2 No. 0. 188-M1983

CSA File No. LR15503
(Voltage rated at 600 volts maximum, building wire: 1000 volts maximum, signs, fixtures and luminaires. Operating Temperature: 105°C.)

Note: UL Listed and CSA Certified for AWG only. Connector is not recommended for direct underground burial or other submerged applications.

Engineering Specification

Self-Stripping Electrical Connector (as manufactured by 3M, part No. 314) capable of connecting 2 or 3 wires in the range of No. 22 thru No. 14 AWG solid or stranded copper wire in a pigtail application while insulating the connection and providing a moisture resistant seal. Connector shall be UL Listed and CSA Certified for 600 volts maximum, building wire: 1000 volts maximum, signs, fixtures and luminaires, and temperature rated 105°C maximum.
